On April 13, 1990 the Board of Dental Examiners of the State of Arizona reviewed the information presented by the investigative committees and voted to accept the findings of fact as follows:

1. There was no evidence presented that serviceable alloy fillings should be routinely removed.

2. The validity of tests by Clifford Consulting have not been verified.

3. The Committee expressed concern about being convinced of the necessity of removing alloy restorations.

4. The Committee expressed concerns about Dr. Lee's presentation of the subject to patients. The lack of indication in records does not mean that is not happening.

5. The Committee recognized that Dr. Lee is entitled to his beliefs and conclusions of law as follows:

The facts hereinabove stated represent unprofessional conduct as defined in Arizona Revised Statutes § 32-1201.16(N) which states as follows: "Any conduct or practice which does or would constitute a danger to the health, welfare or safety of the patient or public."

and the following order:

That Dr. Terry J. Lee be CENSURED for the above violation and That Dr. Terry J. Lee be placed on PROBATION for twelve (12) months.
Please be advised that according to A.R.S. §32-1263.02(E), the aggrieved party to this matter may petition the Board for a review or rehearing of the matter. If the party wishes to do so, a written petition must be filed with this office no later than ten (10) days after receipt of this order. If no petition is filed in the allotted time, this preliminary order shall automatically become the final Board order.

Should either party have further evidence that would support reopening the complaint, the evidence must be presented in writing with the petition, which itself must be based on the rules for petitioning for review or rehearing included with this letter.

Issued this 25th day of April 1990, at Phoenix, Arizona.
