DATED THIS 17th DAY OF October 19 90

I am the owner / proprietor of the Sussex College of Technology which is situated at my address in Highfield, Church Lane, Danehill. I am a Doctor of Homeopathy having completed a course in 1952 by correspondence. My college was started in 1969 but I have been running others prior to that and we deal in correspondence courses in alternative medicine and business subjects. This is a private commercial college and my degrees, etc. are not usually accepted by the British Medical Council.

Prior to the Education Reform Act 1988, my college could issue degrees but after it was enacted we could only issue diplomas.

I have checked my records regarding a Gregory Earl CAPLINGER and found that a degree was issued to him by this college on 10th May 1987 in Biochemistry/Immunology No. 003604. This was obtained after he completed a correspondence course with us. However, I do not know the duration of the course as all personal papers have been returned to Mr CAPLINGER. The cost to him of this would have been about \$400.

He later contacted me and asked for further qualifications
