APPETITE Control Patch™

"Our brain contains a weight control center which is responsible for setting and maintaining body weight. It is by controlling the brain's weight control centers that we ultimately control our weight."

— Medical World News

NOW YOU CAN HAVE POWER OVER YOUR OWN WEIGHT CONTROL CENTER...

The APPETITE Control Patch™ is an amazing new development by medical doctors. It combines two time-tested therapies:

- The use of acupuncture points to apply the preparation.
- Homeopathic preparations to produce the APPETOFF™ solution.

The APPETOFF™ solution is applied to a small spot-bandage which is then placed on the wrist's acupuncture point. A "bio-electrical" message is then sent to the brain's appetite control center enabling you to control your appetite.

- 100% satisfaction guaranteed—if you are not completely satisfied with the results of wearing the APPETITE Control Patch™, return the unused portion for a full refund.
